Professional Summary

Entry-level DevOps Engineer with hands-on exposure to CI/CD pipelines, Docker, Kubernetes, Git, and scripting (Python/Shell). Completed internships and projects involving application deployment, automation, and monitoring. Eager to learn and adopt best practices in DevOps while contributing to collaborative engineering teams.

Core Skills

- CI/CD: Jenkins, GitHub Actions
- Containers & Orchestration: Docker, Kubernetes (basics)
- Version Control: Git, GitHub
- Scripting: Python, Shell
- Infrastructure & Automation: Terraform, Ansible (exposure)
- Monitoring & Logging: Grafana, Prometheus, Loki
- Concepts: Virtual Machines, Cloud Fundamentals (AWS/GCP), SDLC basics

Experience

Freelance DevOps Engineer – Pune, India | Nov 2024 – Present

- Assisted in setting up and maintaining CI/CD pipelines using Jenkins and GitHub.
- Deployed applications on Docker & Kubernetes (GKE, Kubeadm).
- Configured centralized logging using Loki, Promtail, and Grafana.
- Implemented monitoring dashboards with Prometheus and Grafana.
- Practiced secure deployments with SSL and Git-based workflows.

DevOps Intern – Stezier Consulting Pvt. Ltd., Pune | Jul 2024 – Oct 2024

- Supported automation of deployments using Ansible and Terraform.
- Assisted in Dockerizing applications and deploying them to Kubernetes clusters.
- Configured CI/CD workflows in Jenkins for application builds and deployments.
- Collaborated with senior engineers to troubleshoot build and deployment issues.

Projects

- **CI/CD Pipeline** – Automated builds & deployments using Jenkins, Docker, and Kubernetes.
- **Monitoring Stack** – Set up centralized logging & dashboards using Loki + Grafana.
- **Multi-tier Application** – Deployed a sample app using Docker, Terraform, Jenkins, and Kubernetes.

Education

Master of Computer Applications (MCA) – JNEC, Aurangabad (2021–2024)

Bachelor of Computer Science (B.S.A) – Hi-tech College, Aurangabad (2018–2021)

Certifications

- Docker & Kubernetes – Udemy
- DevOps Essentials – Linux Academy
- GitOps with ArgoCD – KodeKloud
- AWS in Plain English – Udemy

Additional Highlights

- Strong eagerness to learn and adopt new tools & practices.
- Familiarity with software development lifecycle (SDLC).
- Good problem-solving, collaboration, and communication skills.
